“We are solution provider, not just supplier. Service is at the heart of everything we do. From design to delivery, we are always with you.”

David Yong , President of Wellwares

All our products are produced from reliable and environmental-qualified factories of the industry. Our factories have gotten through the authorized audit: EU, BSCI, Sedex, Disney etc.

Compliance, Inspection and Audits for you

Wellwares plant is updated with the latest environmental-protection facilities.

The factory has been well-qualified by NEPA(National Environmental Protection Agency), additionally,our environmental protection equipment completely meets the national environmental protection requirementsand is connected with the national network, which make sure the production more guaranteed.

Production Factory -- Environmental-Protection Qualified by NEPA

Certification

- All our factory, have full set of environment protection documents, make sure our factory do the biggest probability normal production when meet bad weather.

- We know each winter, in northern part of China, most factory will stop production because many of reason, but we have built big warehouse in each factory and will arrange the mass production in advance as back up, even if our factory stop, but we still could have cargo do the shipment normally.

What's the key with consumers today is that they want to decorate their table with different dinnerware, to meet the modern trend, wellwares focuses on offering not just a selection of products but designs based on clients desire and turning your ideas into a unique and practical solution.
